Information Regarding COVID-19 Testing Aftercare

Please follow any relevant work-related COVID-19 test reporting protocols, as applicable. You are also encouraged to ask the study team for aftercare resources if you test positive throughout the study period (contact: wellnesshub@unityhealth.to)

Listed below are potential contacts for more information on follow up care after your COVID-19 test.

If you have questions about your results, or your results are not available online, please contact the study team at wellnesshub@unityhealth.to. Please note that results can take up to 4 days.

COVID Alert app

COVID Alert is a privacy-first, mobile app that uses Bluetooth to notify app users if they have been near someone who has tested positive for COVID-19. If you were tested positive for COVID-19, you can enter a one-time key into the app. The app tells app users you've been near that they may have been exposed to COVID-19 without sharing your personal information.
